Part 2: You are a new member of a garden club. Fill in the form. Write in sentences.

Why did you join the club?

I joined the garden club because I have always enjoyed spending time outdoors, and I want to learn more about gardening. I think it will be fun to meet new people who share similar interests and exchange gardening tips.

Part 3: You are a member of the garden club. You are talking to three other members in the garden club chat room. Talk to them using sentences.

A: Describe your garden?

My garden is small but colorful. I have various flowers like roses, tulips, and daisies, along with a few herbs like basil and mint. There's also a small vegetable patch where I grow tomatoes and lettuce.

B: Do people in your country like gardening?

Yes, many people in my country enjoy gardening, especially in rural areas. It's common to see gardens with flowers, vegetables, and fruit trees. People appreciate the beauty of plants and also enjoy the sense of accomplishment from growing their own food.

C: What is your favorite season? Why?

My favorite season is spring because the weather is warm and pleasant. I love seeing the flowers bloom and the trees regain their leaves. It's also the perfect time to start planting and enjoying the outdoors.

Part 4: You are a member of the gardening club. You received this email from the club.

Dear members,

The City Council wants to encourage people to take up gardening. The City Council has two proposals. The first is to plant 500 new trees and some species of flowers at the local park. The second is to organise gardening workshops at a local college.

As a member of the gardening club, please email which proposal you would like to propose.

1. Email to your friend (feeling, ideas)

Hi Sara,

Hope you're doing well! I just got an email from the club about the City Council's new gardening plans. They're thinking of planting 500 trees and flowers in the park or organizing gardening workshops at a college.

I'm really excited! I think planting trees is a great idea—it'll make the park greener and more beautiful. What do you think? Let's discuss it soon!

All the best,
Nguyen

2. Email to the manager (feeling, ideas)

Dear Sir/Madam,

I hope this email finds you well. My name is Pham Khanh Nguyen, and I have been a member of the gardening club for three years. I am writing to share my opinion regarding the City Council's proposals.

Both ideas are fantastic, but I strongly support planting 500 trees and flowers in the local park. This initiative will provide a greener environment, improve air quality, and create a beautiful space for the community. Additionally, trees offer long-term benefits such as shade, habitats for wildlife, and a natural way to combat pollution.

While gardening workshops are valuable, I believe more people will benefit from an improved park. A beautiful park can inspire residents to take up gardening naturally, even without formal workshops. Also, this project will have a lasting impact on future generations.

I appreciate the effort the City Council is making to encourage gardening and would love to support this initiative in any way I can. Please let me know if there are opportunities to get involved.

I look forward to your response.

Yours sincerely,
Pham Khanh Nguyen

CAR CLUB

Part 2: Do you usually travel by car?

Yes, I usually travel by car, especially when I go to work or take short trips. It's more convenient and saves time compared to public transportation. I also enjoy the flexibility of stopping wherever I want.

Part 3:

A: Tell me about a time you traveled by car.

Last summer, I traveled by car with two of my closest friends. We went on a weekend trip to the countryside. The drive was long but enjoyable. We listened to music, had snacks, and stopped to take photos of the beautiful scenery along the way.

B: Tell me about memories when traveling by car.

One of my best memories was a road trip with my family when I was a teenager. We drove to the beach, played games in the car, and talked a lot. It was a great way to bond with each other and enjoy quality time together without distractions.

C: Should we take public transportation or buy a car?

Both options have advantages. Public transportation is better for the environment and often cheaper. However, owning a car offers more independence and is more convenient for people with busy schedules or those living in remote areas. It depends on your lifestyle.

**Part 4:**

There will be a car program running across Europe. The program invites the Car Club to send 2 representatives (1 main driver and 1 passenger) and both must have good driving skills. Do you have any suggestions for the above positions?

Hi Sara,

Hope everything is going well with you. Did you see the latest notice from the club? They're choosing two people to join a car program across Europe! I just got an email from the club manager. To be honest, I'm super excited about it! I think we should suggest Minh as the driver – he's really skilled. Maybe I could go as the passenger? Hope to hear from you soon!

**All the best,
Nguyen**

Dear Sir/Madam,

I hope this email finds you well.

My name is Pham Khanh Nguyen, and I have been a member of the Car Club for over three years. I am writing to express my suggestions regarding your recent email about the upcoming car program across Europe.

According to the message, the club needs two representatives – one driver and one passenger – both with strong driving skills. Honestly, I was really excited when I read the email because this is a great chance to show our club's talent.

From my perspective, I suggest that Minh Nguyen be selected as the main driver. He has won several local driving competitions and always drives safely and responsibly. As for the passenger, I would like to recommend myself. I have experience with long road trips and can also assist with navigation and planning.

I have also spoken to other club members, and they agree with my suggestions.

I hope you will take them into consideration and let me know your decision.

**Yours sincerely,
Pham Khanh Nguyen**

NATURE CLUB

You are a member of a nature club and want to build a nature park so that club members can see wildlife and their habitats or do you want to build a tree line for everyone in the city to use?

1. Write an email to your friend to talk about your choice and explain why
2. Write an email to your manager to talk about your choice and explain why

Hi [Friend's Name],

I hope you're well! For our club's project, I think we should build a nature park. It would allow us to create a safe place for wildlife and give club members the chance to observe animals in their natural habitats. A tree line is a good idea for the city, but a nature park would offer more educational opportunities and help protect wildlife. What do you think?

Best regards,
[Your Name]

Dear Manager,

I hope you're doing well. After thinking about our project options, I believe building a nature park would be the best choice. A nature park would provide a dedicated space for wildlife to live in their natural habitat, free from human disturbance. This would also give our club members the opportunity to observe animals in their environment, fostering a deeper understanding of conservation.

Although a tree line is beneficial for improving the city's environment, a nature park would have a more significant impact. It would not only protect wildlife but also create a space for educational programs and community events, which can raise awareness about nature preservation. I believe this project would provide long-term benefits for both the wildlife and our club members.

I look forward to your thoughts and hope we can discuss this further.
Best regards,
