When and where do you like taking photographs?

Part 3: You are talking to other members of the club in the chat room. Talk to them using sentences. Use 30 – 40 words per answer.

Sajed: My favorite family photograph is a picture of me when I was a child. Can you tell me about one of your family photos?

My favorite family photograph captures a special moment from a beach trip with my parents and siblings. We are all laughing joyfully, the sun setting in the background, creating a warm and cherished memory.

Jo: I enjoy taking photos of people, especially if they are doing something active. What kind of photographs do you like taking and why?

I enjoy capturing a variety of photos. Nature shots allow me to appreciate the beauty of the world, while people photos capture special moments. Gift items and interesting objects intrigue me. Ultimately, photography connects me to memories and emotions.

Chris: People are always taking photos of themselves with their phones these days. Do you think this is a good thing? Why or why not?

I think it's a good thing. It allows people to capture moments instantly and share them. It's a way to express oneself and preserve memories. However, it's important to enjoy the present too, not just through a screen. Balance is key.

Part 4: You are a member of the photography club. You received this email from the club's manager.

Dear Member,

As you know, every year we hold a competition for the best photograph from our members. In the past we have had just one single category. This year we are thinking about having separate categories for men and women and another category for people under 16. Before we make any changes, we would like to hear from you. What do you think of the proposed change? Please do not forget to tell us the reason for your opinion.

- Write an email to your friend, who is also a member of the club. Tell your friend how you feel about this change and why you feel this way. Write about 50 words.
- Write an email to the manager of the club. Tell the manager what your opinion about the proposed change is and your reason for that opinion. 120 – 150 words.

Hi Sara,

The club manager is considering separate categories based on gender and age for the annual photography competition. I don't agree with splitting the categories by gender and age. I think photography should be judged based on creativity and skill, no matter who takes the photo. Dividing the categories might create barriers and discourage some members. What do you think? Let's chat about it soon!

Love,
Nguyen

Dear Club Manager,

I hope this message finds you well.

First, I would like to introduce myself. My name is Vu Khanh Nguyen and I have been a club member for 5 years. I am writing this email to express my opinion concerning the recent email that I have received from the club.

According to the email, you said that in the past we have had just one single category. This year we are thinking about having separate categories for men and women and another category for people under 16. I believe photography should be judged on creativity and skill, no matter who takes the photo. Splitting the categories might create divisions and discourage some members from joining in. A single category brings us together and helps us learn from each other.

I think we should keep the competition as one category to celebrate everyone's talent equally. **Besides**, I suggest we could have special awards for different themes or styles within the main competition. This way, we can celebrate a variety of talents without dividing the members.

Thank you for your consideration, and I look forward to hearing from you soon.

Yours sincerely,
Vu Khanh Nguyen

Dear Club Manager,

I hope this message finds you well.

First, I would like to introduce myself. My name is Vu Khanh Nguyen and I have been a club member for 5 years. I am writing this email to express my opinion concerning the recent email that I have received from the club.

According to the email, you said that our club would have an exhibition of our members' best paintings.

I am thrilled about the upcoming photography exhibition and talk aimed at attracting new members. To engage individuals of all ages, I suggest incorporating a theme centered around "Moments of Joy." This theme is universal and can evoke emotions that resonate with diverse audiences.

To make the event more interactive and inclusive, I recommend organizing workshops and demonstrations during the talk. These activities will not only attract new members but also provide valuable insights and hands-on experiences for current members and guests.

Additionally, promoting the event through various channels, such as social media, local community boards, and word-of-mouth, can help reach a wider audience and generate interest among potential new members.

Thank you for considering my suggestions. I am looking forward to the event and am excited to contribute to its success.

Yours sincerely,
